in Rohit Mirage  Rohit-mirage  portfolio

Results-driven **Data Analyst** with skilled in transforming raw datasets into actionable insights. Proficient in Python, MySQL, Advance Excel, Power BI, Tableau, and data visualization techniques. Strong analytical mindset with experience in data cleaning, predictive modelling, and dashboard creation to support data-driven decision-making.

Skills

Programming: Python (Pandas, NumPy, Matplotlib, Seaborn)

Databases: MySQL

Data visualization tools: Advance Excel, Power BI, Tableau

Core Skills: Data Cleaning, Data Analysis, Data Visualization, Business Intelligence, KPI Reporting, Dashboard Development, Data Modelling, Data Validation & Data Entry Accuracy

Other: CRM Handling, Reporting, Statistics, Predictive Modelling, Client Data Management, KYC & Client Onboarding (Basic Understanding), Reference Data Management (Basic Knowledge), Banking Operations Fundamentals, Data Quality & Verification Processes

Projects

Customer Shopping Behaviour Analysis| Python | MySql | PowerBI |Link

- Analysed 3,900+ transactions using Python (Pandas) and PostgreSQL to identify customer segmentation and purchasing trends
- Performed data cleaning, missing value imputation, and feature engineering to enhance data quality and analytical accuracy
- Built interactive Power BI dashboards (DAX) to visualize KPIs, revenue trends, and generate actionable business insights

Spotify data analysis | MySQL | Link

- Built and analysed a Spotify dataset using advanced SQL (CTEs, window functions, subqueries) to extract insights on track performance and user engagement.
- Developed complex queries for ranking, aggregation, and cumulative analysis, solving real-world analytical problems.
- Improved database performance by applying indexing and query optimization (EXPLAIN), reducing execution time significantly.

Global Disaster Analytics Dashboard | Python | PowerBi | Link

- Analysed global disaster data (2018-2024) using Python (Pandas) to uncover trends in frequency, economic impact, and response efficiency
- Developed an ETL pipeline for data extraction, transformation, and feature engineering to prepare analysis-ready datasets
- Designed Power BI dashboards with maps, KPIs, and trend analysis to support disaster management and policy decisions

Education

BCA – Dr. Babasaheb Ambedkar Marathwada University, Aurangabad

2025

Certifications

Analytics job simulation - Deloitte Australia

MySQL (Advance) - Hacker Rank

Data analyst - Fortune Cloud Technology
